The requirements on slide 11 are embedded in this document. You can delete. Our A. Chief is reviewing this document currently and will be sending the final to Chief (b)(6);(b)(7)(C). Once I get that, I will forward. We have a northern border document as well. I will send shortly. (once again, cost numbers are placeholders, based on FME cost spreadsheet from a few years ago and historic data). Will need to work these numbers with your office in near future.

10-4. we have ROMs we can plug in as long as we have mileage.

Here is our current draft, I have a quick review from OCC pending,

Should have you a document at 10:45. The document I send is going to our editor who is writing our document so it will change slightly. Can send you a final when we get it as well. This will be a working document. There are placeholders for cost that we need to work through with FM&E at a later date.
